

Ordering Kitty Kollar

Ordering manually with this form will incur a \$15 processing fee.

We encourage you to [place your order online](#).

Before you order

Kitty Kollars® come in six sizes. The majority of cats will wear either petite or small, while tiny toy dogs wear extra small and up. Each kollar has a Velcro tab, making it adjustable, but the better the fit the more comfortable the kollar will be, especially in the smaller sizes. It is important to measure your animal's neck accurately as we cannot accept returns for incorrect sizing.

Measuring your pet

- If your pet already has bandages on the neck; measure UNDER the bandages, or just in front (the ear side, not the tail side) of where the bandages start.
- To measure your pet, wrap a tape measure or string firmly but not tightly around his neck.
- Tubes are standardly placed on the left side of the neck. If your vet has placed your pet's tube on the right side, contact us for a custom device.
- If your pet's e-tube is longer than 8-9 inches you may wish to order a Double Velcro Kollar. An even better option is to shorten your tube, using our adapters: www.kittykollar.com/accessories

Syringes

We have sourced the very best syringes to help make your feedings easier, faster and safer. The o-ring syringe silicone material is smoother (and won't harden like rubber) so it will glide reliably for hundreds of uses.
